EXPERIENCE

EmployMePlease*CEO Intern**City, ST*

Jan. 0000 – Present

- Optimized a customized system for job hunting to be 69% faster though automated tools, enabling myself to apply to 9000+ positions across 51 states in the U.S. while setting new personal-best records of career desperation
- Boosted recruiter response rates by $\times\infty$ by using the **X-Y-Z format** and not over-bolding technical skills such as **Microsoft Office**, **Google Suite**, and **ChatGPT**

University of Illinois Chambana-Urpaign

Dates can go here instead!

Teaching Unassitant

- There are many ways to use **1r**: omit the location, move the dates, etc. (**just be consistent**)

Left Company*Center Position*

Right Dates

- Or maybe you like **1cr** (**just be consistent**)

Syntax Inc. | *Senior Hardware and Software Research Development Engineering Manager*

ca. 420 BCE – 0 CE

- Play around with **font sizes, families, and styles** (**just be consistent**)
- Can use periods (**just be consistent**).
- Beware: ‘—’ is different from ‘|’!

PROJECTS

Emuser: A Pretty Awful Resume Template

Dec. 2023 – Present

- Released a modern LaTeX resume template used by at least 1 hooman, introducing accessible formatting options, standardizing multi-line section items, and virtually eliminating vertical spacing hacks
 - Think twice before nesting bullets (can look messy).
 - You can customize them though!

No Spelling Mistakes Here!

January 2023 – Janurary 2023

Since I only have one thing to say, maybe I don't want bullet points...
